WATER IS LIFE! But our watershed needs help – water quality is degraded by pollution from abandoned mine wastes, and periods of drought threaten our ranches and environment. **Please support the Uncompahgre Watershed Partnership (UWP)** as we and our partners continue our hard work to address these issues.

Here is UWP's 2020 work plan.

- **Continue abandoned mine remediation** in collaboration with Ouray Silver Mines, Trout Unlimited, Trust for Land Restoration, government agencies, and other stakeholders. We'll be working on projects at the Atlas Mill site on the way to Yankee Boy and high up in Governor Basin.
- **Work with ranchers, recreationists, water agencies and other watershed stakeholders** on the Ouray County Steering Committee for Stream Management and Planning to determine water resource needs and options.
- Distribute the new **information pamphlet on the Uncompahgre River Watershed in Ouray County.**
- **Advocate for local stakeholders** on updated water quality benchmarks for the upper Uncompahgre Watershed.
- **Continue monthly water sampling, watershed education and public outreach events, park clean-ups, and riparian restoration efforts.**
- **Produce the annual Ridgway RiverFest.**

2020 will be an important year for UWP and we need your financial support as much as ever! Grants cover our major projects, but cannot be used to cover many ongoing administrative expenses. Fundraising activities at community events help, but donations from individuals and businesses are critical. *The future of our watershed depends on the generosity of caring community members like yourself.*

Please donate what you can during this year-end membership/fundraising drive. Your donations are federal tax deductible, and contributions of \$100 or more also qualify for a 25% tax credit against your Colorado income taxes.

Please join or renew as a member so you and your family can become part of the team working to protect and restore the Uncompahgre River.

THANK YOU!
