#### **WATER IS LIFE!**

But our watershed needs help – water quality is degraded by pollution from abandoned mine wastes, and periods of drought threaten our ranches and environment. **Please support the Uncompahgre Watershed Partnership as we and our partners continue our hard work to address these issues.**

This fall, the UWP Board approved our **2021-2023 Strategic Plan**, which will guide our work over the next three years, including:

- **Abandoned mine remediation** at the Terrible and Virginius Mines in Governor Basin above Ouray;
- **Monthly and project-specific water sampling** in rivers, streams and other watershed resources;
- **Watershed education** at events such as Ridgway RiverFest, a webinar series, and tours, as well as in classrooms and school field trips;
- **Clean-ups and riparian restoration efforts** at Rollans Park, Ridgway State Park, and Ouray Ice Park;
- **Scientific support and advocating for local stakeholders** during public processes about projects and plans affecting the Uncompahgre Watershed.

**2021 will be an important year for UWP and we need your financial support as much as ever!** Grants cover our major projects, but cannot be used to cover many ongoing administrative expenses. Fundraising activities at community events help, but donations from individuals and businesses are critical.

**The future of our watershed depends on the generosity of caring community members like you. Please donate what you can during this year-end membership/fundraising drive and become part of the team working to protect and restore the Uncompahgre River.**

Your donations are tax deductible, and **contributions of \$100 or more also qualify for a 25% tax credit against your Colorado income taxes.**
